Our aims include repeal of the urban renewal law, which still remains as a threat; repeal of the law passed by the last Legislature requiring public registration of party affiliation; amendment of the grand jury law; enactment of a recall law; establishment of a maximum property tax levy to prevent property confiscation through the ever-spreading rise in property taxes; and amending the unfair eminent domain law."

## Granite Accepts Budget, Wage Plan

Special to The Tribune  
GRANITE PARK — With an estimated income of \$37,156,275 on a local district levy of 52.4 mills, just two-tenths of a mill higher than this year's levy, Granite Board of Education ordered a budget prepared to provide for 59,100 students in 1966-67.

At a regular meeting in district offices Tuesday evening, Supt. Elmer J. Hartvigsen told the board that three committees — the district Professional Relations Committee, representing board of education and professional groups, the offices of Granite Education Assn. and the GEA salary committee — had agreed on salary schedules for all employees except principals, supervisors and directors.

## Salary Schedule

The board also accepted the teacher salary schedule and Kenneth C. Johnson, Granger High teacher and GEA president, said the GEA membership would be polled after faculty representatives are briefed Wednesday at 4:15 p.m.

"With the recommendation of the executive board that the

schedule be accepted, we hope to bring back a report of the acceptance of the new salaries by Friday," he said.

With GEA approval, the budget can be prepared for tentative adoption at the June 7 board meeting, Supt. Hartvigsen said.

## Compliments Officers

Mrs. Howard B. Summerhays, board president, complimented the GEA officers and committees for the long hours and cooperative effort expended in reaching a salary accord.

The new schedule gives a new scale for teachers with a master's degree and 30 quarter hours of credit.

The basic bachelor's degree and certificate scale will start at \$4,900, up \$200 from the current year's scale, and have a maximum of \$7,630 in the 14th year, up \$160 over the present schedule.

## Academic Credit

For teachers with a bachelor's degree plus 30 prior approved quarter hours of academic credit, the pay will run from \$5,030 in the first year to \$7,840 in the 14th year, up from \$5,300 after three years experience to \$7,600 in the 14th, in-

creases of \$130 in the fourth year and \$240 at the top.

The program previously was not available to beginning teachers.

Teachers with the degree, certificate and 60 prior approved quarter credit hours will start at \$5,180 (\$4,980 this year) and go to \$8,220 on the 14th step (\$7,880 now).

Holders of a master's degree will start at \$5,300 (now \$5,100) and rise to \$8,500 in the 15th year (now \$8,000).

## Sabbatical Year

The new track, master's degree plus 30 quarter hours, starts at \$5,990 after three years experience and goes to \$8,630 in the 15th year.

The board also approved changing the sabbatical year leave pay from one-third to one-half of the annual salary for the year in which leave is granted and increased sick leave provisions to a maximum of 180 days.

Certificated staff members will now be granted termination pay, upon retirement, on the basis of one-tenth of the accumulated leave at the daily rate of the current salary.

## Strike Continues At Brick Plant

Clayworkers employed by Interstate Brick Co., 3100-11th East, stayed off the job for the second straight day Tuesday, as no new efforts developed to shorten the strike.

Pickets continued to block the plant's seven entrances, and during the day turned away an independent trucker seeking to load up with brick.

Clayworkers, affiliated with the United Steel Workers Local 6975, struck the company when fringe benefit, rather than salary, requests were not met by management officials.
